OLD TESTAMENT.—Professor Bissell.

- 1. During 1892-3; and every second year, a course upon Old Testament Introduction, Criticism and Theology, twice a week for half a year.
- 2. Junior Class. Hebrew begun. Recitation five times a week throughout the year. Text book: Harper's Elements of Hebrew, Harper's Introductory Hebrew Method and Manual. Special emphasis is laid upon the aquisition of a vocabulary. The inflection of the lauguage and several hundred of the commonest words are memorized. There is daily drill in reciprocal oral translation and in writing Hebrew.
- 3. Middle Class. Reading from the Historical Books twice a week throughout the year. Text Book: Hebrew Bible, Harper's Hebrew Syntax, Driver's Hebrew Tenses. Special attention will be given to the Syntax, to enlarge the vocabulary and to rapid reading. For a part of the

year the class will take English Bibles to the blackboard and, with these alone, write the Hebrew from memory.

- 4. Senior Class. Reading at sight from the Historical Books. Exegesis of Hebrew Prophecy, and Poetry, twice a week throughout the year.
- 5. During 1893-4, and every second year, such members of the Middle and Senior Classes as are qualified for it, may make a beginning in Comparative Semitic Grammar by reading comparatively the first chapter of Genesis in Hebrew, Aramaic, Syriac and Arabic.

NEW TESTAMENT.—Professor Bissell.

- 1. During 1893–4, and every second year, a course upon New Testament Introduction, Criticism and Theology, twice a week for half the year.
- 2. a. Junior Class will read the remaining three gospels with reference to the Harmony, and, also, to the distinctive character of each of the four gospels, four times a week throughout the year.
- b. Middle Class will read Ephesians with Exegesis twice a week throughout the year. The other epistles of the captivity—Phillippians, Collossians and Philemon—will be assigned for private reading. A summary of their contents will be considered in the class room, and they will be required in the examination.
- c. Senior Class will read Romans with Exegesis twice a week through the year. The other epistles of the third Missionary Journey, I Corinthians, II Corinthians and Galatians, will be assigned for private reading. Their scope and contents will be discussed in the school room, and they will be required in the examination.

SYSTEMATIC THEOLOGY.—Dr. Sanders.

In this Department the purpose is to have each student read, during his course, some standard work on Systematic Theology, and in addition to this to read some authority on Theism.

This course of reading will be made the subject of the most thorough examination and free discussion, and will be supplemented by every available means which are likely to encourage and stimulate the student in his search for truth, and in preparation for its defence.

Systematic Theology is begun in the second term of the Junior year and completed in the Senior year. The doctrines of Theology are presented didactically, historically and polemically. The order of topics pursued is: The nature, forms and sources of theology; the being of God, His nature and attributes; the Trinity; the Divinity of Christ; the Holy Spirit; the decrees of God; creation; providence; miracles; the origin, nature and primitive state of man; the covenant with Adam; the fall; sin; imputation; original sin; inability; the covenant of grace; the person of Christ; His offices; the nature, necessity, perfection and extent of the atonement; His kingdom; His humiliation and exaltation; vocation; regeneration; faith; justification; sanctification; the law of God; eschatology; the sacrament.

PRACTICAL THEOLOGY.

Homiletics.—Prof. Jones.—The work of this Department is carried on throughout the Seminary course. In the Junior and Middle years, a text-book on the "Preparation and Delivery of Sermons" is read. This is supplemented by exercises in the analysis of Sermons, and preaching before the Professors and students of the University weekly.

In the Middle and Senior classes much attention is given to the preparation and criticism of Sermon plans and extempore preaching.

Christian Evidence.—Dr. Hargrave.—By means of text-books and discussions the student is aided in verifying the

Biblical proofs of doctrine and Christian truth as represented in the symbols of the Church, and he is thus trained to express with facility and clearness the revealed will of God.

Pastoral Theology.—The treatment of this subject is confined to the third year of the course. It is designed that each student shall become thoroughly acquainted with the best method of applying the message of salvation to the hearts of and lives of men. Lectures are given, accompanied by use of text-book.

The course includes the importance of ministerial piety, proper habits of study, skill and ability in the various branches of church work, the pastor's relation and duty to the various courts of the church, and the various private and public duties pertaining to his office.

Church Government.—Dr. Sanders.—Four lectures on the general subject are given to the Junior Class.

In the Middle year the Form of Government with proof texts is taken up and pursued through one term, and a minute comparison with other forms of church polity is made.

In the Middle and Senior years, Dr. Hodge's work, "What is Presbyterian Law?" and the book of Discipline are used as text-books, accompanied by lectures.

BIBLICAL AND ECCLESIASTICAL HISTORY.-Prof. Jones.

Since Sacred History is of vital importance as a part of a thorough Theological Education, the subject is pursued through the entire three years' course.

Biblical History is studied by the Junior Class with the English version of the Old Testament as a text-book, and Smith's Old Testament History as a guide, and is taught by lectures and constant reference to the typical and preparatory nature of the Old Testament. The connection between sacred and profane History is pointed out and

attention is given to Archæology, Geography and Chronology.

Ecclesiastical History.—This subject is taken up by the Middle Class and is taught by lectures and with text-book, covering the period from Apostolic times to the Reformation—16th Century.

The Senior Class continues the subject from the Reformation to the present time, devoting the second term to the history of the Presbyterian Church in the United States.

During each year a carefully prepared thesis having for its subject some leading personage, epoch, or phase, etc., of sacred history, is required from each student.

Information.

Admission.

This school is open to young men of all denominations. Candidates for admission must produce evidence that they are members in good and regular standing in some evangelical Church; that they possess competent talent, and that they have been regularly graduated at some College or University, or in some way they have received an equivalent for the training of a College course. Applicants for admission to an advanced standing must present a dismission from some other Theological Seminary, or be prepared for examination on the subjects which have been pursued by the class which they desire to enter.

When a student who has been a member of any other Theological school seeks admission into this, he must produce certificate of good standing and orderly dismission ere he can be received.

Exceptional Cases.

In exceptional cases, promising young men who have not had the benefit of a full College course will be received and will be allowed to pursue an eclectic course.

Period of Study.

The regular course of study, as in the other Seminaries of the Church, covers a period of three years.

Practical Work.

The practical work of the Ministry is joined with study as the theological students have opportunities of laboring as supplies in the neighboring churches during vacation and in term time.

With the facilities at hand special and successful efforts

are made to aid students in obtaining vacation employment along the lines of their future work as teachers and preachers among the people.

Rules and Regulations,

Except in a few particulars the students of the School of Theology are not subject to the rules and regulations which govern those of the other Schools of the University.

Rooms.

The rooms in McNamee Hall, so far as is necessary, are reserved for Theological students. Each of these rooms are furnished with a bedstead, mattress, pillows, bureau, wash stand, chairs, looking-glass, etc., and is heated by steam.

Expenses.

There is no charge for tuition or room rent. There is a charge of \$8.00 per month for board in connection with the Boarding Department, where all the students living on the grounds are required to board. The fee of \$8.00 per month covers also expenses of fuel, light, and washing of towels and bed clothing.

The Examination.

The next Annual Examinations will be conducted during the last week in May. The examination will be oral and written. Each student is required to take this examination, and if by sickness or absence one fails to take it, he must submit to an examination with a corresponding class in a subsequent year.

LATIN LANGUAGE AND LITERATURE.—Prof. McCrorey.

Allen and Greenough's Latin Grammar will be the standard of reference.

Special attention will be given to analysis and parsing throughout the course.

Some time will be devoted to the study of the style of each author.

Scanning Latin poetry will be part of the work required in the study of Poetical Works.

Lectures on Roman Life, Art and Customs will occupy some time in connection with Horace's Works.

GREEK.—Prof. Frierson.

All the classes will also read from the Greek New Testament throughout the course. Recitations once per week. Examinations required on all subjects in each class.

MATHEMATICS.—Prof. Pride.

The required course in Mathematics comprises Algebra, Plane and Solid Geometry, Trigonometry and surveying.

Algebra.—Algebra is taught throughout the Freshman year and continued through the first term of the Sophomore year.

Plane Geometry.—The study of Plane Geometry is taken up in the Second Term of the Sophomore year. Special attention is given to the Exercises of Original Demonstration and a free discussion of the possibilities of each proposition is encouraged.

Solid Geometry and Plane Trigonometry is the prescribed course for Juniors.

Surveying.—Surveying is taught through the first half of the Senior year. Special attention is devoted to field work.

HISTORY.—Prof. Jones.

The study of English General History is carried through the second term of the Sophomore year with text book and by lecture. On this subject there will be five recitations a week. This subject receives that careful and exhaustive attention which its importance demands.

PHILOSOPHY.—Dr. Hargrave.

Mental Science.—Mental Science is taught through the first term of the Senior year by the use of text books and lecture.

Moral Science.—Moral Science is studied through the second term of the Senior year, and the students are instructed in the principles of the Theoretical and Practical Ethics.

Civil Government.—Civil Government and the Constitution of the United States, and Political Economy, are studed in the Senior year, and each student is made acquainted with the government of the people of the United States, and American citizenship.

ENGLISH BIBLE.—Prof. Frierson.

Scope and Aim.—The English Bible as a text book is read and studied, without intervention of helps or commentaries, in the Normal, Preparatory and Collegiate Departments of the school. The course, as hereinafter outlined, covers a period of six years. The aim is to take the student through a systematic and carefully supervised study of the "Book of books" in its entirety.

The Second Class will read Gen.-Deut.

The First Class will read Josh.-Esth.

The Freshman Class will read Job-Dan.

The Sophomore Class will read the twelve Minor Prophets—Hos.-Mal. First term.

Information.

Students of the School of Arts and Sciences are subject to all the Rules and Regulations for the government of the University, except that service in the School of Industries is optional.

There are two regular examinations, one near the close of each of the two terms. The final grading of the Senior class is now based upon in part and made up after the second examination.

The examinations are oral and written and the requirements in connection therewith are absolute, except that a student may be conditioned for one term in not more than two studies, and the minimum general average for promotion to a higher class is 75, and any one falling below 65 in any three studies is required to repeat the year or is dropped from the school.

Students are required to conform to the prescribed courses in every particular, unless expressly excused by the Faculty.

The discipline is impartial and firm, and all demerits arising from misconduct or infringement of the Rules and Regulations enter in and modify the grading, and when the number of demerits reaches 25 in any one term the delinquent is subject to suspension. Demerited students cannot take part in public exercises unless relieved by special action of the Faculty.

Junior Prize Contest.

Two gold medals, First and Second Prizes, are offered for superior excellence in oratory by the Alumni Association, open to members of the Junior class appointed by the Faculty.

FACULTY.

REV. D. J. SANDERS, D. D., President.

REV. P. W. RUSSELL, A. M., Principal and Professor in English.

> JAS. D. MARTIN, A. M., Professor of Latin.

REV. P. G. DRAYTON, A. B., Professor of English.

H. H. CARDWELL, B. S., Assistant Professor of English.

The Preparatory School aims to prepare the student thoroughly for the studies of either course of the School of Arts. The Preparatory English Course is a necessity, as the large majority of the students coming to the Institution have not had the opportunity to ground themselves in the common English Branches. Upon completing the studies of this course the student is prepared to teach in the common schools of the State, as well as to enter the Freshman class. A certificate will be given to each student completing this course.

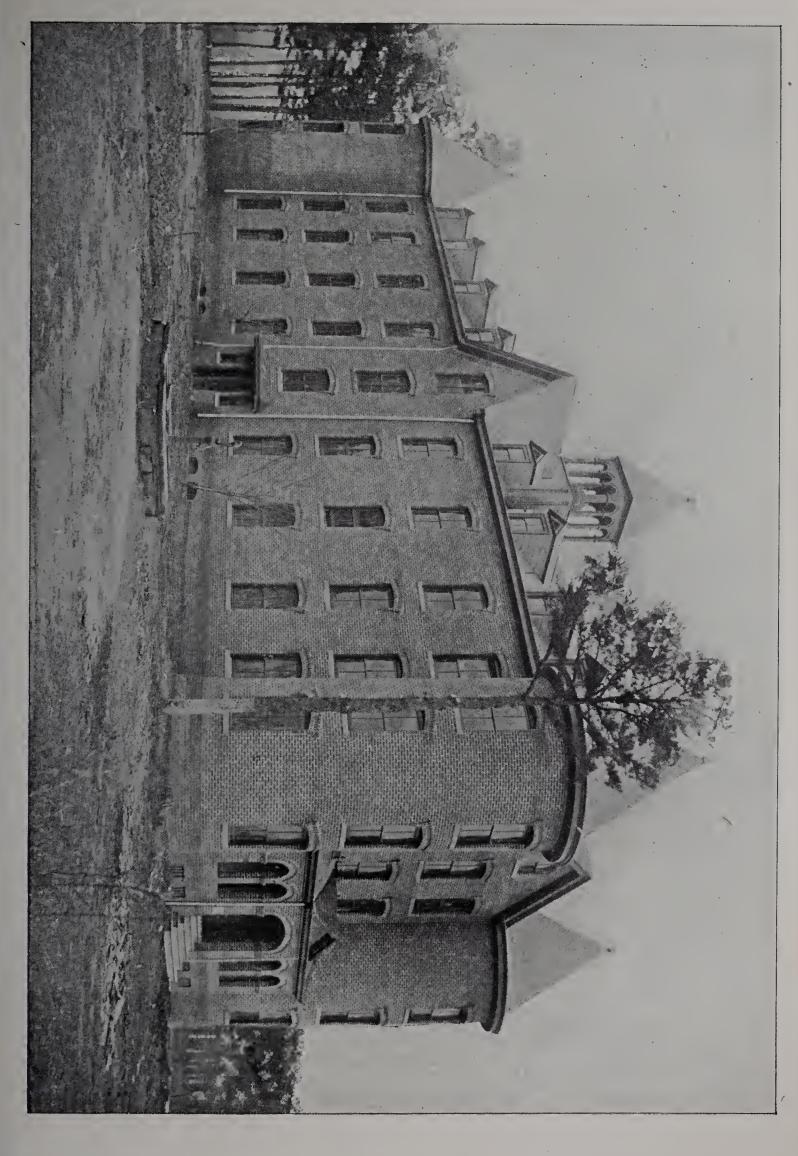

All applicants for admission to the lowest class of this course must be at least twelve years of age, must furnish satisfactory testimonials of good moral character, and must be able to pass a satisfactory examination in the Fourth Reader, Primary Geography, and Wentworth's Grammar School Arithmetic through Decimal and Common Fractions. To enter a higher class the applicant must pass an examination in the studies of the class next below it.

School of Industries.

H. A. Hunt, Superintendent.

All students in the Preparatory Course are required to take some trade, and report every day for work in the Industrial School.

At present six trades are being taught—Carpentering, Printing, Bricklaying, Plastering, Tailoring, and Shoemaking. Each student is allowed to have his choice of trades being taught, but no change will be allowed after the choice is once made. One fourth of the time in recitation hours is devoted to industrial training.

WOOD WORK.-H. A. Hunt, Foreman.

Carpentry and Joinery are taught in a room provided with twelve cabinet benches, each of which is fitted up with a set of carpenter's tools.

Students are taught the use and care of these tools, the principles of wood working—from drawings and models—and have also such practical instruction as can be had from improvements and repairs of the buildings and furniture of the University.

Besides doing the necessary work for the school a limited amount of work is done for outside parties. Two professors' houses have been built by the students, also a boiler house; and extensive repairs have been made on other buildings.

PRINTING OFFICE.—William E. Hill, Foreman.

This office is equipped as any regular printing establish-

ment would be. Besides the ordinary office furniture it has three printing presses.

In this office the Afro-American Presbyterian and the Biddle University Record are set up and printed, and job work is done, thus giving the students actual printing office instruction and practice, both in typesetting and presswork. The office is equipped for doing excellent work, and the instruction is thorough and practical.

THE SHOE SHOP .- J. L. PHELPS, Foreman.

The shoe shop is fitted up with twelve shoemaker's benches, each of which is provided with a set of tools. Students are taught the use and care of these tools, and such as is done in a regular shoe shop—sewing, pegging, nailing, cementing patching, half-soling, fitting, lasting, and putting together of new work. By doing work for the students and professors, ample opportunity is given for making this branch of work thoroughly practical.

MASONRY AND PLASTERING.—J. E. Montague, Foreman.

These two trades have been introduced, and instruction in them is being given daily with very satisfactory results. These branches are putting a goodly number in possession of skill that will command work and good pay.

It is proposed to further enlarge this department by adding Blacksmithing, also to organize a branch of agriculture.

TAILORING.—E. W. Hamilton, Foreman.

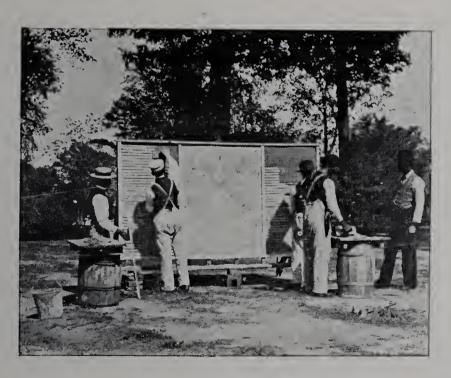

The room for this branch of industry is provided with all necessary facilities for teaching and learning this important trade. Cleaning, pressing, hand and machine sewing, repairing and making new work are done, and the various elementary principles of the trade are taught. The advanced students are taught cutting and fitting.

CHAPEL.

LOGAN HALL,

General Informatien.

The School year consists of one session of two terms, commencing on the first Wednesday of October and closing on the first Wednesday of June. Students wishing to enter should make early application. The best interests of the Institution and of the students require that he report himself for duty promptly at the opening of each term.

Tuition.

There is no charge for tuition, except in the case of local students, who are charged \$16 per session.

Literary Societies.

There are four flourishing literary societies—the Mattoon, the Clariosophic, the Johnson, and the Douglass. The exercises consist of composition, discussion and debate, and there is a Moot Court connected with them. These societies are governed by laws enacted by themselves, and their officers are also elected by themselves. The students are required each to become a member of one of these societies and to attend upon the exercises. The whole is under the supervision of the Faculty.

The Library and Reading Room.

A large, airy room on the first floor of the main building has been set apart as a Library and a similar one on the third floor as a Reading Room.

The former contains about 12,800 volumes of commentaries and religious literature, and also a variety of the works of standard authors. About 300 volumes and 60 pamphlets have been added during the year.

The latter is well supplied with many of the best religious and secular weekly and daily papers.

The students have daily access to Library and Reading Room under special regulations.

College Y. M. C. A.

A college branch of the Y. M. C. A. is in successful operation, with a membership of over 100. It is earnestly desired that all the students identify themselves with this noble work.

Pecuniary Aid.

Candidates for the ministry and young men of promise will receive such aid as their necessities and the resources at command will allow. Friends in Scotland have established a fund of \$6,000, the interest of which is to be used to aid young men preparing for mission work in Africa.

Should any beneficiary of these funds marry before completing his course of study, thereupon his aid shall be forfeited, nor will any one be aided who uses tobacco in any form.

Location and Design in the Establishment of the Institution.

The University is located at Charlotte, North Carolina, and is named in memory of the late Major Henry J. Biddle, of Philadelphia, whose widow, Mrs. Mary D. Biddle, has been one of its most liberal supporters. It is chartered by the Legislature of the State and is under the auspices of of the Presbyterian Church in the U. S. A.

The object of the institution is the education of colored teachers preachers, and leaders for their race in other walks of life.

It stands at the radiating point of seven railroads, in the midst of a dense and comparatively intelligent colored population and occupies a site of 70 acres in the suburbs of the city.

It is situated in the heart of the South Atlantic region, which contains the two Synods of Atlantic and Catawba, having 346 colored churches, 218 ministers, scores of young men in preparation for the ministry, with a large

number of schools and academies under their care. These schools and churches must be furnished with intelligent Christian teachers and preachers, who must be largely educated on the field, and in contact with the people among whom they are to labor. Such a training is given here at less expense than it could be elsewhere; the student has the best opportunity for a liberal education together with the refining influence of a Christian home, and he is kept at the same time in contact and sympathy with the people.

Conclusion.

No Institution in the care of the Presbyterian Church has a wider field or greater opportunities. Its students are gathered from all the South Atlantic and other States, and are scattered in their school and Church work through all this vast region, and as far west as Texas.

The Institution is consecrated to the glory of God and the welfare of a needy race. It is the only Institution of its kind maintained by our Presbyterian Church in the South and it certainly is one of the most important agencies in the hands of the Church for the accomplishment of good among eleven millions of Afro-Americans. It commends itself to the prayers and gifts of all good men.

The *importance* in the eyes of the Church, of the interests which Biddle University represents, is forcibly put in the language of a recent circular addressed to churches on its behalf by the *Board of Missions for Freedmen*.

"What is done," say they, "for Biddle University, will, in a great measure, determine the success of our whole work among the Freedman."

"Indifference to the Biddle University is indifference to our whole work among the Freedman. If liberally supported, no missionary undertaking will return speedier and more abundant fruit. Where are the men and women who will build up this Institution for the glory of God and the good of a needy race?"

The Presbyterian Journal says:

"Aiming to do a thorough work of education there can be no question that it (Biddle University) is already doing a great work with the promise of still greater results hereafter."

Rev. E. P. Cowan, D. D., Corresponding Secretary of the Board of Missions for Freedmen, says: "The best argument in favor of Biddle University as at present organized, is the good condition in which it now is and the good work that is now being done. This can be seen by any one who will take the time and trouble to visit the place and examine for himself.

"The order and decorum of the students is remarkable. The rules are stringent and obeyed. The buildings are well kept.

"The Industrial Department is better organized and more efficient than it ever was before in the history of the Institution.

"If the University only had the necessary scholarships, the roll would easily run up to 500.

"We have come to the point where the Presbyterian Church, in its work among the Freedmen, must decide whether it is going to have a large, strong, first-class University or not. Here is a grand one if we seize it, future generations will say, 'How wise!' If we neglect it, they will say, 'How foolish!'"

In the *Church at Home and Abroad*, Rev. Edward B. Hodge, D. D., Corresponding Secretary of the Board of Education of the Presbyterian Church, says:

"A recent visit to Charlotte, North Carolina, enabled the Secretary to make something of an inspection of the working of Biddle University. The situation of the Institution is most delightful, commanding a wide view of the surrounding country. It is sufficiently far from town for the purpose of academic seclusion, and yet near enough for all purposes of convenience. President Sanders presides over the Institution with ability and skill to a degree that commends him to the favorable comments of such intelligent observers as the pastors of the Presbyterian Churches in Charlotte. It is very gratifying to find with what interest they are regarding our work among the colored people. It is delightful to find what an eagerness for learning the students display, and in many cases, a very decided apti-

tude. The order and discipline of the University is excellent."

Referring to a more recent visit, the Secretary says:

"I am assured from actual observation that the teaching force of Biddle University is thoroughly competent. They know what to undertake to teach and how to teach it. I was much interested in everything I saw at the University."

In proof of the estimation in which it is held by prominent Southern men, see the following:

From Dr. E. Nye Hutchinson:

"It is my earnest prayer that some liberal Presbyterian may fully endow Biddle University and make it not only useful to the generation at home, but a blessing to the world."

PITTSBURG, Pa., April 21, 1898.

I spent about two weeks at Biddle a year ago and made a careful examination of all its methods. I am fully persuaded that the academic work of this Institution is as well done as in our best Northern college, and that the discipline of the Institution is better than in most of them.

"DAVID R. BREED."
